Association

Green Country's Manufacturing Network

ABOUT TAMA:

The Tulsa Area Manufacturers Association began as a group to provide ideal networking and professional enrichment opportunities for manufacturing executives in Tulsa and Green Country. Today, those professional opportunities continue for our members each month, with activities, plant tours, committee meetings and educational outreach programs. For more information, visit TAMA online at www.tamatulsa.org.

WHAT MAKES TAMA DIFFERENT?

TAMA members meet and network with professionals facing the same challenges within the manufacturing industry. Besides beneficial networking, TAMA's membership supports key initiatives that are the foundation for local manufacturing success. TAMA also has a highly qualified membership, due to a screening of potential members.

WHAT ARE TAMA'S KEY INITIATIVES?

TAMA members work together to tackle some of the toughest challenges facing manufacturing in Oklahoma, and on a larger scale, the United States. TAMA works with area chambers to communicate Green Country's manufacturing strength, craftsmanship, and innovation. The organization also has a strong emphasis on growing Oklahoma jobs, and educating future generations about careers in manufacturing. Here's just a few of the initiatives we support:

- Monthly plant tours for professional enrichment
- Monthly speakers on relevant manufacturing topics
- After-hours networking events
- TAMA scholarships for manufacturing students in technical schools and colleges
- Fundraising for educational programs, including local Career Pathways Fairs, Road Trips for Teachers, and Dream It Do It.

GROW GREEN COUNTRY'S MANUFACTURING PROFILE WITH US:

If you are a manufacturing executive or leader in the Tulsa area, we encourage you to apply for membership. Our yearly dues are \$100 for full members (\$250 for associate membership), which is great value when considering the costs of chamber memberships and other professional organizations. Join us to help spread the word about the strength of Tulsa's manufacturing power. Sign up today at www.tamatulsa.org.
